

Carol Hambleton
Misty Morning Blackbird
Oil painting on board
55 x 65 cms

This painting is part of a series I called the 'The Animal Gaze'. There are 12 paintings in all. I became fascinated with eye to eye contact with a non-domesticated animal. There is something strange about that moment of contact, a communication.

The images are from photographs I have taken.

The painting and print (on acid free archival paper) are both for sale.
