A study using new techniques and inspired by Hector Mansilla, one of my favourite artists from Mexico. The aim was to capture familiar patterns and geometry of Mansilla's work without completely copying it.

I graduated from the University of Worcester in 2013 with a BA in Illustration. I currently produce work in my spare time whilst working but am always on the lookout for new opportunities. I work primarily in digital formats but incorporate traditional techniques such as material textures and screen-print-esque composition.
